

A modern building with dark brown vertical WPC cladding. The building features a large glass window on the left and a smaller rectangular window on the right. A wooden deck is visible in the foreground, and a grassy area with a glass railing is on the right. Mountains are visible in the background under a clear blue sky.

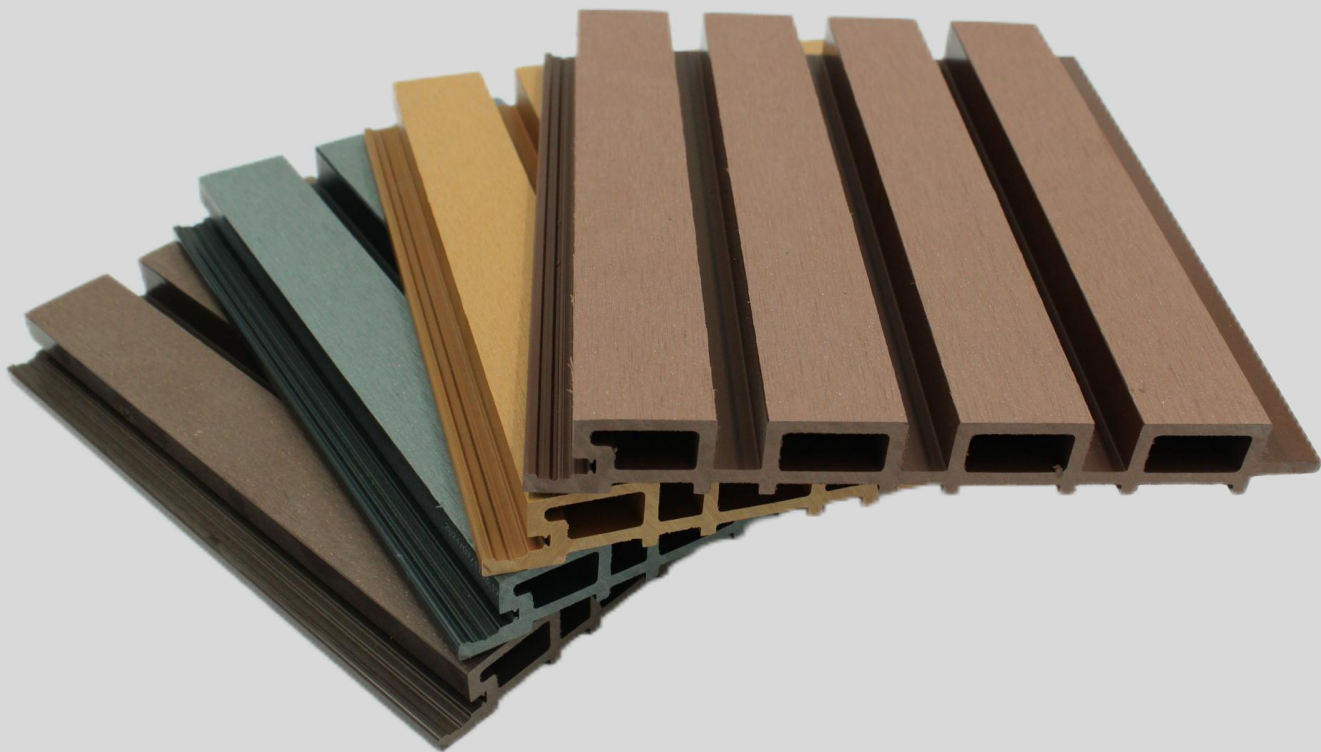

WPC CLADDING

Specification

ITEM	WPC Decking
Length	2900mm
Width	219mm
Thickness	26mm

Advantage

Water Proof

WPC Cladding has the advantage of being waterproof and moisture-resistant, addressing the weakness of traditional wall panels that are susceptible to water.

Diverse design options

Offer a wide range of textures and colors suitable for various interior design styles, meeting diverse needs.

Easy to clean

The surface is smooth and easy to clean, preventing the accumulation of stains.

Easy to Install

Installation is convenient, saving a considerable amount of time and money
